TriadaChem Ltd.

CASE STUDY: eQi Food Service Cleaning

Customer Challenge

Leading pizza chain test kitchen wanted to improve safety of their cleaner for oven panels

Wanted to reduce labor time to clean – current product and process required overnight soak

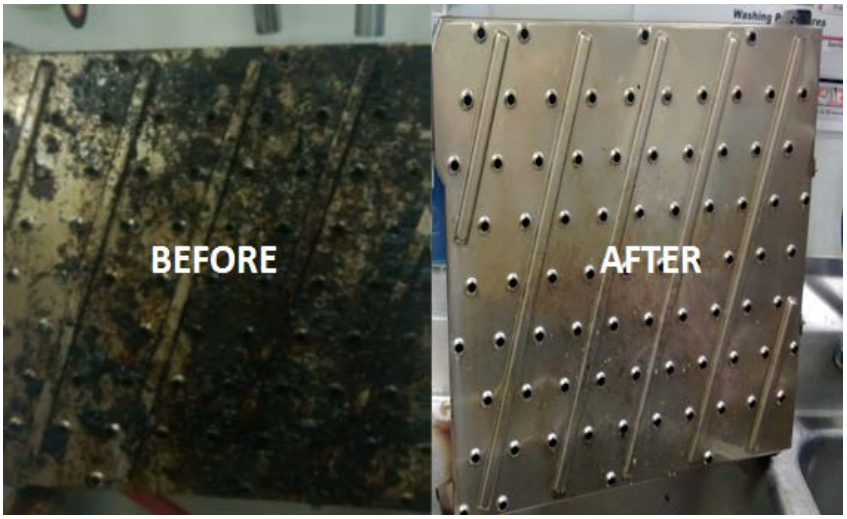
Solution

eQi chosen due to carbon soil and the need to clean at lower pH for workers and equipment

Neutral RTU formula (pH 9) is easy to use, cost effective, and VOC exempt

The Test

- Removed carbonized panels from pizza oven
- Using eQi RTU prototype cleaner the customer cleaned the panels in 15 minutes with scrubbing; significant time and labor savings vs current method



The Result

eQi – faster & safer cleaning

dynamic surfactant chemistry for heavy duty cleaning and degreasing
